Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides key information on the 2022-23 educational progress for Armada High School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Mr. Andrew Kastl for assistance.

The AER is available for you to review electronically by visiting the following website <https://bit.ly/371plmt> or you may review a copy in the main office at your child's school.

For the 2022-23 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student subgroup in 2022-23. An Additional Targeted Support (ATS) school is one that had a student subgroup performing at the same level as the lowest 5% of all schools in the state in 2021-22. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state or had a graduation rate at or below 67% in 2022-23. Some schools are not identified with any of these labels. In these cases, no label is given.

Our school was not given one of these labels

The 2022/23 school year was a continued return to pre-pandemic norms. Armada High School continued with Common Core Standards and curriculum alignment in all classes and continued to work to grow our learning opportunities for students. Staff continued to focus on evidence based instructional strategy implementation and aligning student learning outcomes to competency-based learning models.

State law requires that we also report additional information.
